Bernyl Fiesta

Product number DM5340

Product Data

Sheens	(15,25,40,60,90)
Maximum wet film build per coat	6 mils (150g/m ²)
Maximum total coating system dry film build	6 dry mils (150 microns)
Pot Life	24 hours
Shelf Life	12 months
Sanding	30 – 45 min
Stacking	2-3 hr
Architectural Woodwork Institute Quality Standards	
7th Edition	~TR-3
8th Edition	Postcatalyzed Lacquer Transparent

Notes

Association Members

Bernyl Fiesta is an extremely fast drying and curing, acid cured lacquer. The technology in **Bernyl Fiesta** will allow products to be sprayed and stacked or packaged in the same shift, increasing capacity and eliminates production bottle necks. It can be used as a self sealing system, which provides excellent clarity. This coating meets the **German E1** rating for low formaldehyde emissions. Manufactured with environmentally friendly solvents, **Bernyl Fiesta** is free from HAPs.
