

## Technical Data Sheet

**DT5910**  
**Thinner 219**

Suitable for all Becker Acroma acid curing products. Slower evaporation than Thinner 140. Suitable for curtain coating application. Free from ketones, methanol.

**Product Data:** \_\_\_\_\_

**Solvents:** Esters, Alcohols, Aromatics  
**VOC:** 860 g/l  
**Solids by Wt.:** 0  
(Theoretical)  
**Fire risk class:** Flammable  
**Spec. Gravity:** 0.86  
**Frost Sensitive:** No  
**Working Temp.:** >18° C, substrate, coating and air  
**Shelf Life:** 2 years (at 15-25° C).

2001/09/dt5910

**For your safety:**

Remember to read M.S.D.S.  
Produce samples first!  
Remember to stir the container!

Becker Acroma has very high quality coating systems which demand experienced and extremely careful application.

Contact your Becker Acroma Technical Service Representative if you have any questions.

**Points worth noting:**

A perfect result depends on a number of factors: the nature of the substrate, the technical and physical possibilities, as well as the user's application technique.

Our suggestions are therefore merely recommendations and not binding. All deliveries are governed by the latest edition of the Becker Acroma Condition of Sales.
